Subject: RE: EWA Sampling Summary

Thank you, Carolyn. It is unfortunate that they continue to word their "reports" to illicit fear in the public and do not report actual results or risks levels. They are doing a disservice to the community by taking this approach.

Hi –
Just got this from the City of Franklin.
Not many details in the summary.
The summary omits the fact that the "findings" are consistent with the EPA conceptual site model re the sewer to indoor air migration pathway.
FYI
Carolyn
